Packt Publishing Limited, United Kingdom, 2004. Paperback. Condition: New. Language: English. Brand new Book. Microsoft's Community Starter Kit (CSK) is a powerful, freely available application that allows you to quickly create a fully featured community-driven website, complete with article and news management, downloads, forums, and user handling. Supported and tested by thousands of developers in the community across the world, the Community Starter Kit offers you the luxury of a scalable and extensible architecture, and the ability to brand your own site. This book will take you inside the Community Starter Kit, allowing you to harness its power for easily creating your own websites. The book is structured to help you understand, implement and extend the Community Starter Kit: Understand how the Community Starter Kit works. Build the skills to implement your own site. Develop the confidence to extend the system for your own needs. With this book, you will learn how to: Install and configure the CSK Find your way around the CSKs towering range of features Create and administer community websites Become familiar with the common CSK controls Customize your CSK site Discover the secrets of the CSK core architecture Explore the inner workings of CSK modules Extend the CSK by creating new modules Customize existing modules with Web controls Add an RSS feed to share your content with others Deploy your CSK website This book is for developers with a sound grasp of C# and access to Visual Studio . This book uses the Visual Studio .NET version of the Community Starter Kit available from /StarterKits//a.
